

What is Lymphedema?

Understanding Disease Process, Impact and Management

Webinar • January 18, 2017 • 2:00—3:00 pm CST

Presented by: Christopher Miles, OT, CLT, CWCA

Lymphedema is widely misunderstood by both medical professionals and patients. The lymphatic system plays a vital role in overall health, and upon injury, impairment, or dysfunction can have a devastating impact on patient's level of function and overall life satisfaction. This presentation will review the lymphatic system, clinical manifestation, and treatment options available for this condition. There have been advancements in community management of lymphedema that can impact both patient satisfaction and cost-efficiency for the health care system.

The webinar will review:

- Lymphatic System
- Lymphedema—Definition, Clinical Manifestation, Identifying & Diagnosing
- Treatment Options—Manual Lymph Drainage Therapy, Community Management
- Community Management—Reduction Kit
- Life after discharge

About our Speaker: Christopher Miles, OT, CLT, CWCA, has been in the business of compression for over 14 years. He trained as an occupational therapist and in his ten years as a clinician, he worked in 5 different hospital systems. After years in the hospital, it was comprehensive management of lymphedema and wound care that finally drew his interest. With further specialty training, Christopher enjoyed the problem-solving required with this challenging population. He was drawn to the industry-side of the business, and worked with an edema pump company, and now is the Wound Care & Lymphedema Clinical Education Specialist with mediUSA.
