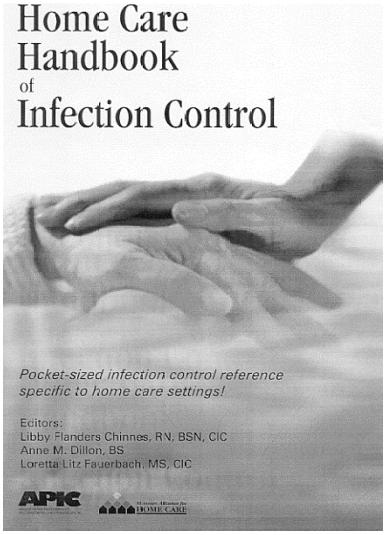
Home Care Handbook of Infection Control

The only home care-specific quick reference available

Order Yours Today!



The Home Care Handbook of Infection Control is the only home care-specific quick reference available. A handy, comprehensive reference that is both inexpensive and pocket-sized so you can carry it with you in the field, it uniquely combines the experience, insight and tips of both home care professionals and infection control professionals who are committed to patient safety and good employee health practice. Authored by home care nurses and ICPs, it includes "common sense" solutions to many everyday home health infection control issues by offering a quick way to find answers without interrupting patient care. It includes easy-to-use tables and charts, references, and clinical decision-making guides. It also provides quick references for the management of specific infectious diseases and occupational health exposure issues. The handbook is designed to help improve patient outcomes, reduce infections, and expand understanding of home care practices. Developed jointly by the Missouri Alliance for Home Care and APIC – The Association for Professionals in Infection Control and Epidemiology, Inc.

Order one for each of your home care professionals!
